SPRINGFIELD MUTUAL
HEALTH INSURANCE COMPANY,
SPRINGFIELD, MASS.
GEO. H. NORMAN, Agent.

THIS institution is conducted on the mutual principle, so far as to admit the parties insured to an equal participation in the profits of the company.

It insures to male and female persons between the ages of fifteen and sixty years, a weekly income at the rate of 100 per cent, upon amounts *annually* deposited; in cases of disqualification for business by reason of sickness or accident. For instance, a person paying $6 a year, insures to himself $5 (or 100 per cent.) for every week's illness within that year. These benefits are independent of whatever dividends may annually accrue to the insured.

The rates of annual payments by the members are as follows:

$2 00	per Annum, draws	$2 00	per week,
3 00	" " "	3 00	" "
4 00	" " "	4 00	" "
5 00	" " "	5 00	" "
6 00	" " "	6 00	" "
7 00	" " "	7 00	" "
8 00	" " "	8 00	" "

Persons desirous of providing against protracted sickness, and who will except the first week, will be taken 25 per cent less, viz:

$1 50	per Annum, draws	$2 00	
2 25	" " "	3 00	
3 00	" " "	4 00	
3 75	" " "	5 00	
4 50	" " "	6 00	
5 25	" " "	7 00	
6 00	" " "	8 00	

The main design of this company is to enable prudent and discreet persons of small means, to make provision while in health, by a trifling outlay, against the aggravated sufferings that inevitably invade a sick bed, in seasons of pecuniary privation and of inability to labor. A vast amount of human wretchedness has been prevented or mitigated, within the present generation, by the establishment, in Europe, of similar provident institutions; and within a short period, this system of Health Insurance has been introduced into our own country, with results, thus far, equally beneficial to all whose relief it contemplates—more especially to those who toil daily for their daily bread, and to whom any interruption by sickness becomes a serious and distressing calamity.

By this system, also, one person may insure the health of another—a parent that of a child, or a child that of a parent—an employer that of a workman, or of an apprentice, &c. Thus, those who are able, by a small immediate investment, may relieve themselves from the hazard of incurring heavy burthens, inflicted involuntarily by those who might otherwise become dependants upon them for continued care and support.

While the most humane and benevolent dispositions of mankind are subserved by every association of this description, its beneficiaries are exempted from being placed in the degraded condition of recipients of the bounty of others. For, by the contract into which they enter, they purchase and fairly earn all the benefits which they may demand, as a matter of just and legal right; and, if it is a pleasure Providence that they escape the afflicts imaginant which they have reasonably provided, the satisfactory reflection is left, that the price of their own immunity has been applied to the comfort and succor of their less fortunate fellow-beings.

It is presumed that no extended argument can be required to recommend the objects of this Company to public consideration. A perusal of the Rules and Regulations adopted by the Directors, which may be had at my office, will afford an ample insight into the principles of the Institution, and of its modes of operation.

METALLIC BURIAL CASES.

The subscriber has purchased the right to sell the Patent Metallic Burial Cases for the Island of Rhode Island; and he has just received a fine supply of the different sizes and patterns. These Cases will not preserve remains for all future time without some decay; but we do assert that remains can be kept in them for weeks without decomposition being observable, or without any offensive odor escaping. In climates where we dwell, they will be found doubly useful, and will pass for all the purposes of vaults—which are so often made to shut out the water. It is necessary at long times, even fifty years after interment, to remove remains, it can be done without any difficulty—for the Cases themselves will last as long as time itself.

Every description of wood coffins constantly on hand and made to order.

NEWPORT,

BY CRANSTON & NORMAN,

127 THAMES STREET.

FRIDAY MORN'G, APRIL 9, 1852.

☞ Below we give the final result of the election. We wish that it could have been more complete, but we have secured the General Assembly and defeated William Beach Lawrence, and that, thank God, is glory enough for one day. Lawrence runs immeneely behind his ticket—something more than a thousand votes; Mr. Arnold only lacks about 20 votes of an election. West Greenwich to be heard from,—he will be elected by the Grand Committee. Gov. Allen and the rest of the gentlemen associated with him on the ticket, except Lawrence, are elected by small majorities. We have got straight again once more, and next year we shall have everything all right again.

RECAPITULATION.

Reckoning Coventry and West Greenwich as they are now, and the Lieutenant Governor with the Whigs, the General Assembly will stand:

	Whigs.	Dem.	Vacancies.
Senate,	17	13	2
House,	40	28	4

☞ Thomas Dunn, son of Dr. T. C. Dunn, of this town, has recieved the appointment of Cadet from this District, at West Point.

☞ The Town Meeting adjourned yesterday morning at quarter past 6 o'clock, to meet this morning, at 10 o'clock for the purpose of considering the expediency of making an appropriation for the repairs of streets, and also for the transaction of other business.

THIRTY SECOND CONGRESS.

WASHINGTON, April 7.

SENATE.—Mr. Hale presented two petitions, numerously signed, praying for the repeal of the fugitive slave law.

Mr. Hale said that he intended to make some remarks on the practical operation of that law, but as the whole compromise subject would soon be before them, he would defer what he intended to say until then.

Mr. Bradbury presented resolution from the Maine Legislature.

Mr. Downs reported a bill to prevent fraudulent abstractions of papers from public offices.

Mr. Bradbury introduced a bill extending the benefit of the naturalization laws.

Mr. Mangum endeavored to get up the bills to continue the work upon the addition to the Capitol.

A debate ensued.

HOUSE.—Mr. Goodnow asked consent of the House to introduce a series of resolutions passed by the Legislature of Maine, praying aid to the European and North American rail road project. Objected to.

The bill for a better discipline in the Navy was, by consent, informally passed over.

The committees were then called upon for their reports.

Mr. Henn, of Iowa, reported a bill in favor of granting the right of way and land for a rail road from the Wabash to the Missouri river.

Mr. Orr reported a bill granting the right of way and land for the Florida, Atlantic Gulf and Central Railroad.

The bill was ordered to be read.

Mr. Carter inquired whether the bill contained a section to abolish the duty on iron, if so he should object to it as being out of order.

Mr. Orr replied in the affirmative.

Mr. Hunter raised a point of order that the committee on public lands have not the power to modify the duty on one or more article embraced in the revenue laws.

A debate sprang up, and is still in progress.

☞ The contest in this town, on Wednesday, was nobly and gloriously carried on by the Whigs. They were at the polls early, and continued there until the work was done. They fought every inch of ground, and they had fearful obstacles to contend with. We congratulate them, and we are proud of their noble and successful efforts. Our opponents never struggled so, here before, and their appliances were never so numerous and varied as on this occasion. The vote is the largest which was ever polled in this town.

☞ Our friends in Portsmouth and Middletown have done nobly in the late election; they are always true in the good cause, and ever firm in sound Whig principles.

☞ There was a good deal of fun at the voting on Wednesday, in this town, under the Secret Ballot Law. About one hundred voters came in with white kid gloves on, so as not to soil their envelopes. One gentleman held his envelopes in a pair of silver sugar-tongs, and in this manner deposited them in the Box. All candid persons, of both parties, were disgusted with this law.

☞ At the Town-meeting on Wednesday, John Stevens was re-elected Street Commissioner.

The Mystery Cleared Up.—One of the mysterious truck makers was shot by Mr. John Barry, in Lynn, on Monday evening, in the shape of a grey Owl, measuring five feet two inches between the tips of the extended wings.—*Phila. Bulletin.*

NONSENSE.—What else can we call it, when a member of Congress stands up and says:—"An interest in the soil is a natural as well as a moral right, to which every man is as much entitled, as he is to the air he breathes."

R. R. R.—THE BRAIN

Morse's Compound Syrup of Yellow Dock Root is warranted to cure or relieve all cases of disease for which it is recommended in the Circulars, when properly tried. This warrant is based on the fact that its proprietors have never heard of its failing in any such case to benefit those who have used it. This they positively assert. What better evidence could be desired of its value? Try it and your own experience will convince you. Sold by C. G. C. Hazard.

THE WORLD CONVINCED.

The world, oft cheated, now has grown
Somewhat incredulous, we own;
But when whole crowds, late in despair,
Upon their solemn word, declare
That *Cough nor Cold* need trouble give,
With *Rogers' famous Curative.*
To soothe the Lungs, the phlegm expel,
And fever, like a charm, repel;
Why then the world believes, perforce;
Truth leaves it then no other course.
The Syrup that will Colds efface,
Give the worst Cough the *coup de grace*,
Bronchitis cure, and that sad group,
The Asthma, Influenza, Croup;
Deserves, from all with common sense,
A warm and hearty confidence.

ANTI-SCROFULA PANACEA,

THE numerous respectable testimonials in favor of the Anti Scrofula Panacea for the cure of Scrofula and the different complaints engendered from the disordered state of the digestive organ, are points of no small importance in favor of this invaluable medicine. Those who have tested its renovating properties, consider it the best preparation yet offered to the public, and recommend its use in the most unqualified terms of praise. Its reputation is now established as a safe and efficacious remedy in all cases of Scrofula, in chronic disease of the Liver and Kidneys; by its renovating nature it cleanses the blood of all morbid impurities, and quickens the circulation to a healthy action. The Anti-Scrofula Panacea is also pleasant to taste, and is found to be also an excellent remedy in Jaundice and Dyspeptic complaints, in Pulmonary and Rheumatic affections, nervous debility, Spitting Blood, Palpitation, Salt Rheum, Ulcers, Piles, cold hands and feet, cutaneous diseases and humors of every description. In fine, the Anti-Scrofula Panacea is what its name imports; is no imposition, and will do all that is claimed for it by the proprietors of the medicine.

THE ONLY ORIGINAL AND GENUINE

CLIREHUGH'S TRICOPHEROUS!

Let those now use
Who never used before,
And those who always used
Now use the more.

REDUCED FROM ONE DOLLAR.

TO FIFTY CENTS PER BOTTLE!

THIS justly celebrated and widely known compound which for sixteen years has met with distinguished success wherever it has been introduced, is now reduced to such a low price, as will enable it to be within the reach of all, as it is the cheapest and best article now in use. Its curative properties are almost miraculous: Scald Head, Salt Rheum, stings of insects, and all the numerous train of disagreeable cutaneous eruptions disappearing as if by magic.

ITS STRENGTHENING AND STIMULATING qualities are unrivalled, rousing into action the nerves and blood vessels which carry nutriment, imparting health to this greatest of nature's adornments (a beautiful head of hair) to the latest period of life.

FOR ERADICATING DANDRIFF it is unsurpassed. Cleansing the skin completely of every impurity, leaving the hair neither gummy, or dry, but moist soft and silky. It is superior to oil to dress the hair, as it does not soil the hat, or head dress and keeps longer moist.

THE TRICOPHEROUS has gradually risen in favor with the public, by its own merits and not like the puffed and ephemeral compositions existing to day, and swallowed in oblivion to morrow, until it has become one of the staples of life, and looked for by all as one of the necessaries of the toilet and medicine chest.

The known popularity of the Tricopherous has occasioned many spurious articles, bearing outwardly the same name and character. Ladies and Gentlemen purchasing must therefore be careful to ask for CLIREHUGH'S TRICOPHEROUS.

Prepared by Viar Clirehugh, New York, and for sale by his only wholesale and retail agents,

Organized March 1. 1852.

TO AID EMIGRATION TO CALIFORNIA.

THIS Association organized to enable persons with limited means, for a small sum, to receive a first class passage to the "Golden Regions," knowing that many of the most enterprising of New England not having the means to pay the high price charged for passages, but still have the desire for the same chance to apply their energies and labor with others who may have more capital. To such of the community, the Association would respectfully invite attention to the following, viz:—

The subscriptions to the M. B. A. of N. E. for emigration to California, will be Five Dollars, for which, each subscriber will receive a work, now in press, containing the history of the State, the mines, resources, &c., &c., a work of interest and value for its true and faithful description of the Golden Land, to which all persons look with interesting emotions.

The Association will be limited to five thousand members in the New England States; amongst which members, will be distributed one hundred first class passage tickets in A 1 ships to California, with sumptious accommodations, and giving that number a first class passage to the Gold Regions with every facility that can be offered.—By this method the Association will send out from its subscribers one hundred to California, with the best of comforts for the voyage. As it is confidently expected that the list will be closed on the first of May, all persons who wish to subscribe will please apply to the Agent of the Association. A passage ticket will be good for three months from the date of issue, and transferable. The subscribers will be publicly notified through agents, of the distribution of passage tickets, which will be forwarded to agents with necessary information.

Office of the Association No. 2 Broad street, corner of State street.

Persons wishing to subscribe for shares at the Boston office, will please address, postpaid, to the Secretary.

"A LITTLE KNOWLEDGE IS A DANGEROUS THING."

THIS saying has but a partial application.—A very little knowledge of the physiology of the hair teaches that want of care deprives many of that most becoming ornament to the person. Those who would desire to preserve their heads from baldness, cure thinness on the scalp, prevent discoloration, and secure a glossiness and softness of texture, should use Bogle's, Hyperion Fluid.

Many look upon the process of shaving as one which requires a merely mechanical attention to accomplish perfectly. It is not so. The conditions which furnish the speediest and easiest accomplishment are a healthy state of the skin, and a suitable lather to preserve its soundness.—Bogle's Aitole is the most approved article for softening and smoothing the skin, and imparting to it an elasticity inconsistent with any chance of irritation, or eruptions which follow it. Sold by Wm. Bogle's Agents.

Dr. Marchisi's Uterine Catholicon.

THE UNDERSIGNED, HAVING BECOME AGENTS FOR THIS INVALUABLE MEDICINE, would respectfully invite the attention of the afflicted to the gratifying success that has attended its use wherever introduced, and its happy adaptation to the cure of the distressing diseases for which it is offered.

This CATHOLICON is in truth one of the GREATEST MEDICAL DISCOVERIES OF THE AGE, and is deemed to become identified with the health and happiness of

FEMALES.

This declaration is based on the fact that it will cure more than nine-tenths of all cases of very prevalent diseases, known as

FEMALE COMPLAINTS,

and which have been before resisted the skill and exertions of the most accomplished Physicians of all countries, to a degree beyond that of almost every other malady to which the human family is heir. It has already received the approbation and liberal patronage of very many prominent members of the Medical Faculty in the United States, willing to abide the truth, and having due regard for the welfare of their patients, and is, in every way worthy the confidence of the afflicted as A SUCCESSFUL, SAFE and CHEAP REMEDY. Of this, additional proof will be found in a pamphlet, to which the attention of Ladies and Practitioners is respectfully invited.

This medicine has never been introduced by empty puffs and misrepresentations, nor is it intended that its present popularity shall be sustained by any medium but its merits and the approbation of the public. The CATHOLICON is not a "cure-all," but is intended expressly for those complaints incidental to the respectable female whether married or single—PROLAPSUS UTERI, FLUOR ALBUS, CHRONIC INFLAMMATION AND ULCERATION OF THE UTERUS, ACCIDENTAL HEMORRHAGE, PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with all their ever attendant evils: (Cancer, excepted,) no matter how severe, or of how long standing.

Pamphlets can be had gratis, of the agents,

FOR A C. Barry's Tricopherous, or Medicated Compound

THE efficiency of this justly celebrated article for invigorating, beautifying and improving gloss and silken softness to the hair, is now so widely known and acknowledged, that it has gained by its merits a reputation which is now as lasting as time. It is the province of our age to subdue and control those physical evils which refined civilization has brought in its train, for so long as warm blood and high hair will be combined neither of other influences will, in the ordinary course of events, be needed to make bald crowns and grey locks, to say nothing of various cutaneous diseases to which the hair is subject. The idea to relieve these evils originated with Professor Barry, founder of the Institute of Health, and among the thousands and tens of thousands who have tested the efficacy of his compositions, he now stands almost without a parallel of success, from use of Barry's Tricopherous, and sustained by the favor and universal patronage of a discerning and intelligent public.—For restoring the hair to its original growth, or preventing it from falling out, this compound has been pronounced by all medical men to be a sure remedy. For eradicating scurf, dandruff, and curling diseases of the skin, glands, eruptions, stings and blisters, the Tricopherous will always be found a safe, speedy, and pleasing cure; and for keeping the hair in a healthy state, it is unrivalled.

"Fair mistress man's imperial race ensnares,
And beauty draws us with a single hair."

Barry's Tricopherous is essential to the toilet of every lady and gentleman who desire to give a soft, glossy and luxurious appearance to the natural drapery of nature's throne. Sold in large bottles, price 25 cents, at the principal office, No. 132 Broadway, New York; and sold by the principal merchants and druggists throughout the United States and Canadas, Mexico, West Indies, Great Britain, France, and by R. J. TAYLOR, Newport, and J. BALCH & SON, Providence.

LIFE ASSURANCE.

ÆTNA INSURANCE CO., HARTFORD CONN. ANNUITY FUND, $150,000.

Safety—Stability—Economy.

THIS long established and well known company having organized a new department for life assurance, with an entirely distinct capital exclusively pledged with its reserved accumulations for the payment of losses upon life assurance only, is prepared to issue policies on lives at rates materially reduced from those charged by the mutual companies, and as low as is consistent with ultimate safety. The system adopted by this company is to ascertain precisely what it is worth to insure a certain amount upon a life, and to charge precisely that sum and no more; and not to require a larger premium than is actually requisite for the purpose, with the promise of returning, under the delusive name of profits or dividends, the excess of premium which ought never to have been taken. It is extended with some of those vexations contingencies which are inseparable from the mutual system; it is perfectly simple as well as uniform and equal in all its operations.

Policies will be granted in the usual form, payable after death, or upon the party's arriving at the age of 40, 45, 50, 55, or 60, at his option; in either case free from the claims of creditors. The usual extra risks will be assumed by the company at reasonable rates.

TO THE PUBLIC.

BEING a Manufacturer and Dealer in Burning Fluid and Camphene, and in order to lay at facts fairly before the Public, I take the present opportunity of referring to the many *Dreadful Accidents* from Explosion of Camphene and Fluid Lamps and Cans, which are going the rounds in all the city Newspapers, and in explanation of the accident in *Salem*, which happened a few days ago, I copy the following from a Boston paper, which gives the following explanation of the accident:—

"It is stated that the can contained, by conjecture, about a quart of Fluid, and was placed on a shelf, at a distance of several feet from the stove in which the fire was burning. If these are facts no explosion could ever have taken place without the introduction of fire and the atmospheric air to the Can at the same instant; it is currently reported in Salem that the unfortunate victim was in the habit, at times, of pouring or sprinkling the Fluid upon the Wood in the Stove, to facilitate the kindling of the fire,—and as this may have been done in the present instance and in the absence of all proof to the contrary, (the Mother being in an adjoining room) we have a solution of the matter."

Now by a careful examination into all accidents of this nature, you will find they are caused altogether by carelessness; and, in fact, since the introduction of Camphene and Burning Fluid in this place, all accidents that have happened have been clearly proved to be the grossest carelessness, on the part of the consumers, either by filling the Lamps while burning, or leaving the Wicks out of one of the tubes, as in the case of the last accident which happened here.

Camphene and Fluid are a safe, clean and cheap article of Light; and with proper Lamps and ordinary care, are perfectly safe and will never explode, unless they are brought in contact with fire.

ONLY $25
FOR A HOMESTEAD.

60 FARMS worth over $10,000, and 6,000 Lots, to be distributed among 600 Subscribers.

TO supply the demand for the Lots and Farms, I have laid out another tract, at LAKELAND, adjoining the Long Island Railroad and the land already sold at Bernamville, to be of the same size, and disposed of and divided among those purchasers in the same manner as those recently sold there, with 60 Farms instead of 22.

I have been induced to do this from the great number of persons wishing to purchase these Lots and Farms, as the improvements in that part of the Island are constantly increasing, and large numbers of persons have now become interested in those lands. This additional tract is in every respect equal to the other, and at the rate they are now being taken they will all be sold in a few weeks. About 600 shares are now subscribed.

Each subscriber is entitled to 8 Lots, 25 by 100 feet, lying together, or a FARM of from 4 to 20 acres. The shares are limited at $25—payable, $6 when subscribed for, $6 on or before the day of distribution, and the balance in monthly instalments of $3.

The lots are situated in the Village of LAKELAND on the Long Island Railroad, County of Suffolk, and 48 miles from the city of New York, where handsome buildings are erected, and the Railroad Company contemplate making a large depot for the termination of the early and late trains between that place and Brooklyn. It is one of the healthiest places in the United States, and within one mile of Ronkonkoma Lake, a beautiful sheet of water about three miles in circumference, of singular transparency, and of great depth, with an abundance of fish. The Village is but 4 miles distant from the great South Bay, which is 5 miles wide and 40 miles long, abundantly supplied with oysters, clams, and fish of various kinds.

These lands will produce as much per acre, with the same cultivation, as any land within fifty miles of the city of New York.

Several gentlemen of the first respectability who have lately visited Lakeland and examined the crops then growing there, declare that the wheat, rye, corn, potatoes and garden vegetables, are equal to any they have seen in any part of the country, proving conclusively that the soil is capable of producing, and that in the highest perfection, all that the agriculturist can wish or desire.

Wheat of the same quality, which grows here luxuriantly, was raised by Mr. Samuel Thompson, of Setauket, last year (about 8 miles from his place) who received for the product of a little more than two acres, $100.

Lakeland Station is located on the borders of the Long Island Railroad, whence cars runs several times a day to Brooklyn and New York. The surface of the land is smooth and level, and the surrounding country is perfectly healthy, and within few miles of the place, highly cultivated and valuable, having been settled for more than a hundred and fifty years, and where similar lands sell at from $60 to $200 per acre.

Apply to CHAS. WOOD, Stationer, 171 John street, near Pearl, N. Y., who will receive remittances and forward receipts therefor by return of mail. They will also gratuitously furnish maps and pamphlets of the property, and cheerfully give such other information as may be desired.

I also desire to say that I have good FARMING LANDS West of my Village Lands, which I will sell in five-acre lots and upwards, at $20 per acre.—These lands are well situated for farming and gardening purposes, in every respect; and having the advantage and privilege of Railroad, when cleared and cultivated, they will be equal to any land on the Island, and equal to that which, in the vicinity of all the old villages and settlements of Long Island, sells for $50 to $200 per acre.

CHAS. WOOD,
117 John street, N. Y.
